

January 30, 2008

It is my pleasure to write this letter of recommendation for Kristy Scott. Our daughter, Ayla who is 17 months has been attending her daycare since Sep 1, 2007. We originally choose Kristy to care for our daughter thru a friend of ours who knew Kristy for several years and knew her very well and highly recommended her to us. We were extremely anxious at first just for the simple fact that we ourselves didn't know her but our anxiety quickly changed to thankfulness that we found her. She gives our daughter such loving attention and the loving nature of our daughter is a great testimony to this. As first-time, overly concerned parents, we greatly appreciate Kristy's honesty. She keeps us informed of what happens during the day, whether it s a new word our daughter is using (or new word thru sign language that Kristy has taught her) or the fact that she bumped her head while playing.

Overall, we are extremely happy with Kristy and our daughter thrives in her care and would highly recommend Kristy's daycare to anyone who is looking for a loving and caring environment for their own children.
